

CERTIFICATE IN GRAPHIC DESIGN

FOR WHOM

The course is targeted to the candidates those who wish to work in the Corporate as well Start-up Offices works such as Stationery Designer, Marketing Designer, Web Designer and so on. For those already involved in the Design Industry jobs also can improve their skills based on the industry requirements.

COURSE OVERVIEW

The Certificate in Graphic Design is all around us, in a myriad of forms, both on screen and in print, yet it is always made up of images and words to create a communication goal. This four-course sequence exposes students to the fundamental skills required to make sophisticated graphic design: process, historical context, and communication through image-making and typography. The sequence is completed by a capstone project that applies the skills of each course and peer feedback in a finished branding project suitable for a professional portfolio.

The goal of this specialization is to equip learners with a set of transferable formal and conceptual tools for “making and communicating” in the field of graphic design. This core skill set will equip learners for formal studies in graphic design, and a starting point for further work in interface design, motion graphics, and editorial design.

This course aims to equip learners with an understanding of the principles and elements in graphic design. Learners will study conceptual design and fundamentals in technical execution through software application. Through class exercises and project execution, learners will gain an understanding of the graphic design process
