CONSTRUCTION SAFETY ORIENTATION COURSE – RE-CERTIFICATION ASSESSMENT (CSOC-RC)

LEGAL REQUIREMENT

Construction workers are required to go through the course before they start work. The Workplace Safety and Health (Factories, Safety Training Courses order – clause 2 (6)) stipulates “Any worker employed in manual labour to carry out construction work in building and engineering construction worksites must undergo a safety and health training course approved by the Commissioner for Workplace Safety and Health”.

FOR WHOM

Construction Safety Orientation Course Recertification Assessment is a mandatory assessment for all workers who are willing to renew their CSOC or ACS to continue to work in construction site.

COURSE OVERVIEW

- To equip all personnel with the relevant safety competencies to work in the Process and related industries;
- To reduce the gestation period before the worker can start working by harmonizing the regulatory requirements with the industry endorsed WSQ training; and
- To provide clear progression pathway and address the necessary skills required to move up to the next level of responsibility

COURSE CONTENT

- Identify own roles and responsibilities as an employee in a construction job
- Follow safe work procedures in a construction job
- Follow safe “Work-at-Height” procedures
- Respond to fire emergencies

COURSE DURATION

8 hrs including 5 hours of assessment

ASSUMED ATTITUDE, SKILLS AND KNOWLEDGE / ENTRY REQUIREMENT

- Participants must possess a valid CSOC / ACS, to be eligible to attend the CSOC recertification assessment.
- Participants are allowed to sit for the CSOC recertification assessment once only.
- If the participant fails the recertification assessment, then he is required to attend the 2 days ACS course and pass the assessment to renew his existing CSOC / ACS.
