

DIPLOMA IN ACCOUNTING (DA)

FOR WHOM

The course is targeted to the candidates who would like to consider a future career progression in work in banking, auditing, investment management, business development, manufacturing, marketing and retail, or public services.. For those who are already in the profession, the course would help them to enhance their employability, capabilities and market value.

COURSE OVERVIEW

It is a specialized business program that teaches students the skills they will need to be successful in the accounting field. Many programs involve the study of accounting methodologies, principles, practices, and concepts. The diploma also provides students with a necessary business and accounting framework, and it enables students to pursue graduate education in the accounting field. One of the obvious benefits of specializing in accounting is it offers students the skills needed for managerial positions. Furthermore, the diploma equips students to work with businesses and maintain companies' balance sheets correctly, a crucial job. A Diploma in Accounting enables students to work in both the public and the private sectors. Regardless of where they work, many students with an accounting specialization find that they have better upward mobility in the workplace.
